About Me

I am a passionate web developer with a keen interest in exploring and embracing new web technologies. With a background in web development, I thrive on the challenges of building innovative and user-friendly web applications, solving complex problems through logical thinking and clean code. I am constantly seeking opportunities to expand my knowledge and skills in the ever-evolving world of web development.

PT. Taksu Teknologi Indonesia | Web Developer Intern

June 2023 – September 2023

- Redesigned and developed the front-end of the **Woodlands Transport** website using the **Next.js** framework.
- Implemented **Strapi** as a Headless Content Management System (CMS) to manage and organize website content efficiently.
- Collaborated on improving the website structure, responsiveness, and maintainability.
- Explored and applied modern web development practices using Next.js and Strapi.

RED SYSTEM | Web Developer Intern

December 2022 – February 2023

- Modified existing website templates to meet specific client requirements.
- Developed customized web pages based on user needs.
- Managed and organized data to improve processing efficiency and data accessibility.
- Assisted in maintaining website functionality during development.
